Hapro Vista roof tent

■ *explore new horizons*

Experience the ultimate sensation of freedom with the Hapro Vista roof tent. A unique design, high standard and innovative features are what really sets the Vista apart.

The advanced folding and unfolding mechanism guarantees lightning fast and easy folding- in and out, getting you ready for your next adventure in just 90 seconds. The large front opening, together with the large windows, create a phenomenal panoramic view. The durable, cotton canvas made by De Waard tents, the generous interior space and the luxurious mattress ensure comfortable nights under the stars.

Are you ready for your new adventure?

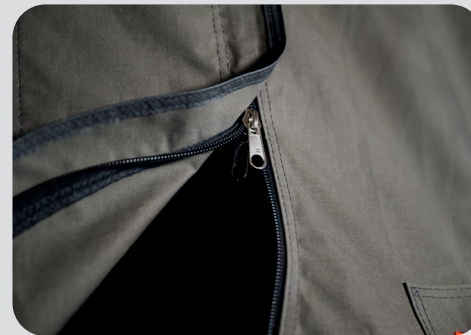

Experience top quality

■ *For a lifetime
of outdoor fun*

Thanks to a unique collaboration with De Waard Tents, the best-known Dutch tent manufacturer known for its rock-solid, storm-proof quality, the Hapro Vista is equipped with a top-quality tent canvas made from lightweight 235 gram cotton. This fabric is extremely durable, breathable and moisture-regulating. A big advantage of this fabric is that it stays cool in warm temperatures and warmer in cold temperatures. It also prevents the formation of condensation on the inside of the tent, ensuring a good night's rest.

Fine mesh ventilation openings on both sides, top and front of the tent ensure optimum air circulation and a pleasant climate inside the tent. De Waard's renowned heavy-duty zips, specially designed for intensive use, and the UV-resistant PVC roof window with blackout blind also guarantee maximum convenience and comfort.

Made in Europe

The Hapro Vista is entirely manufactured in the Netherlands from parts that are exclusively sourced in the EU. This keeps the carbon footprint low and gives the assurance that the tent has been produced with fair labour.

Discover every detail

Panoramic roof window

At night, enjoy a magical view of the starry sky as you slowly drift off to sleep. Prefer a darker sleeping environment? Simply use the blackout curtain to close the roof window.

Windproof and silent

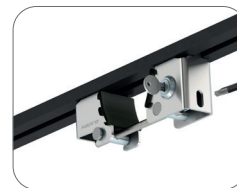

The innovative and patented tensioning system with telescopic poles integrated into the aluminium frame ensures a storm-proof ensemble up to 8 Bft and guarantees quick, easy and, above all, tight tensioning of the cotton tent fabric. This ensures quiet nights with no rattling of tent parts, even in strong winds.

Openings and blackout

The entrance, panoramic skylight and side vents are fitted with fine-mesh mosquito nets. The tent can easily be completely darkened with blackout curtains.

Uni-Fit roof tent clamps

Patented Uni-Fit roof tent clamps with anti-theft system ensure quick, safe and easy mounting of the Hapro Vista to roof bars or a roof rack.

Luxurious mattress

A thick, 55 mm cold foam mattress combined with a 10 mm anticondensation mat guarantee comfortable nights in any season.

Telescopic ladder

The ladder is integrated into the Vista's folding mechanism and can extend up to 210 cm, making it suitable for a wide range of vehicles. A longer 240 cm ladder and a 60 cm extension are available as accessories for taller vehicles.

Easy storage

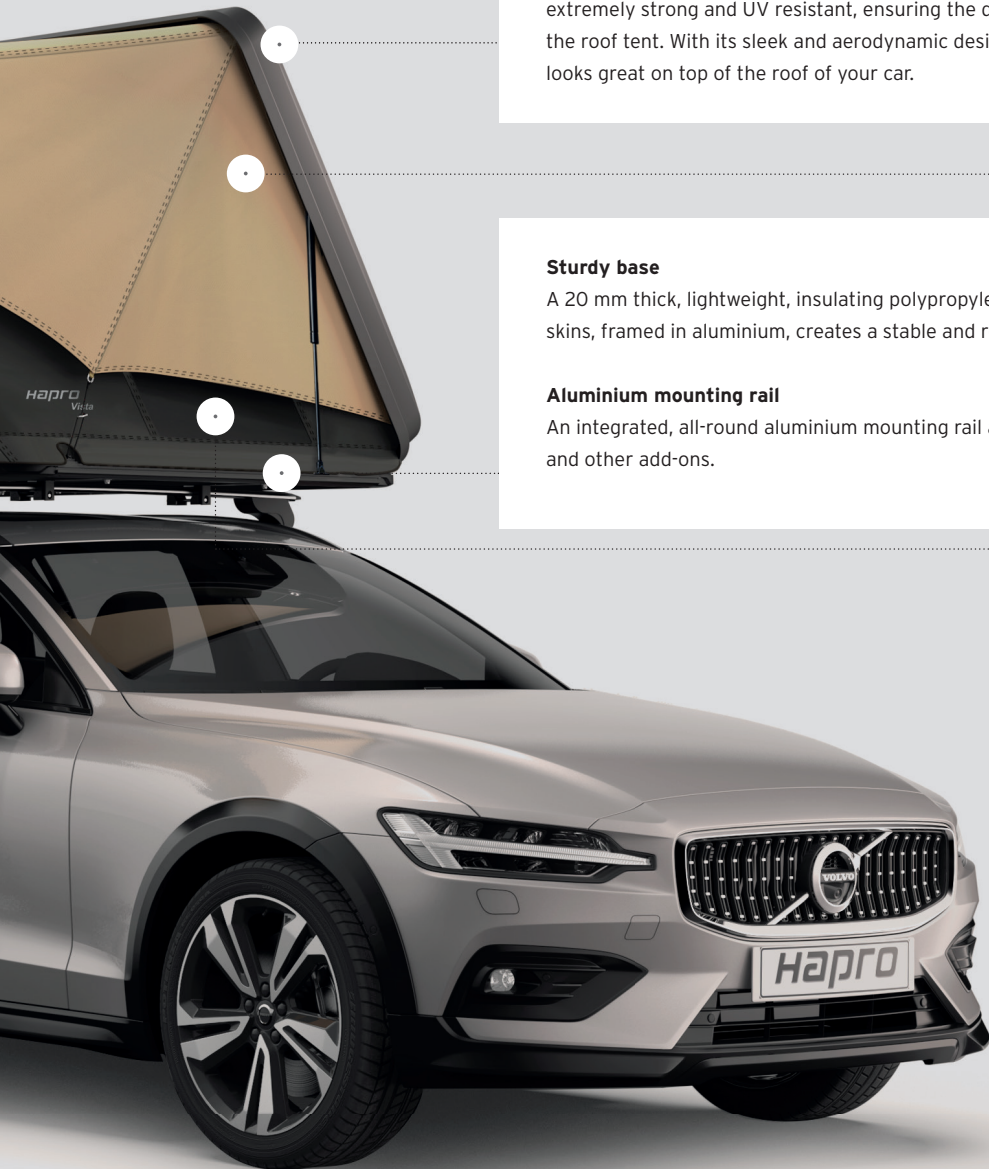

The clever design allows mattress, pillows and sleeping bags to remain in the tent when the roof tent is folded in.

Made in the EU

The Hapro Vista is made entirely in the Netherlands, from parts exclusively sourced within the EU. This results in a lower carbon footprint and a tent made with fair labour.

Hardshell cover

The tough and impact-resistant hardshell cover is made from ABS / ASA material. This unique blend makes the cover extremely strong and UV resistant, ensuring the durability of the roof tent. With its sleek and aerodynamic design, it also looks great on top of the roof of your car.

Sturdy base

A 20 mm thick, lightweight, insulating polypropylene honeycomb floor with fibreglass skins, framed in aluminium, creates a stable and reliable base.

Aluminium mounting rail

An integrated, all-round aluminium mounting rail allows easy attachment of accessories and other add-ons.

Perfect ventilation

Side, top and front vents ensure optimum air circulation inside the tent. The vents on both sides of the tent are fitted with a weatherproof cover that can be closed from the inside.

Durable cotton tent canvas, made by De Waard tents

The high-quality canvas is made of lightweight 230-gram cotton, providing outstanding breathability and moisture regulation. An amazing advantage of this cotton is that it stays cool inside when camping in warm temperatures, while also avoiding condensation on the inside of the tent.

Integrated LED lighting

The Hapro Vista features integrated dimmable LED lighting with USB-C connection. The lighting strip is perfectly integrated into the central aluminium roof profile and extends along the entire length of the roof tent.

Ready to go in 90 sec.

The Hapro Vista is ready to go in just 90 seconds. An advanced folding and unfolding system guarantees quick and easy folding and unfolding of the roof tent.

Heavy-duty zippers

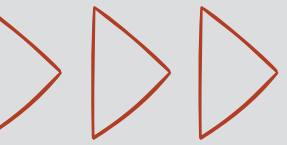

The tent is equipped with carefully selected, robust heavy-duty YKK zips that are able to withstand extreme conditions and intensive use.

■ *Unique and innovative*

The unique, patented telescopic pole tensioning system integrated into the aluminium frame not only gives the tent its iconic look, but also ensures ultimate wind resistance and stability in all seasons and weather conditions. The innovative design allows for the cotton fabric to be easily, quickly and, most importantly, tightly tensioned, preventing flapping, even in strong winds. The tent easily withstands winds of 8 Bft.

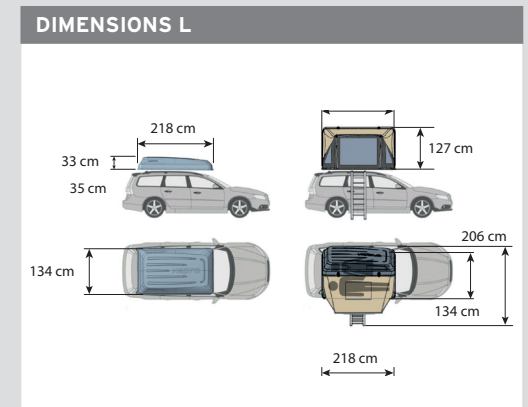

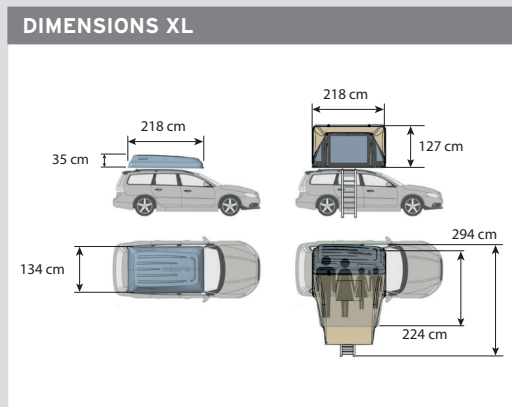

■ Freedom and comfort in abundance

The Vista's spacious front opening, combined with the large windows, creates a phenomenal panoramic view from inside the tent. Even at night you can enjoy a magical view of the starry sky thanks to the large roof window. The spacious interior, luxurious mattress with anti-condensation mat underneath and the integrated LED interior lighting complete the picture and ensure every camper enjoys comfortable nights under the stars.
